

# *BGG 09 Be the Media & Bristol Wireless Space*

## Power Status Codes

During the camp, on the front of and inside the Be the Media & Bristol Wireless tent we will have a colour coded system based on how good power availability is:

### GREEN

All systems go, we have good power. You can use the power as you have arranged, but please **do not charge your laptop** without checking first.

### AMBER

We have to be careful or we'll run out of power. Check first and **only plug-in if you really must**.

### RED

We're in danger of running out of power and **you must not switch anything on**.
